Dear Parents,

This year Goulburn East Public School is asking enrolled families to make a voluntary contribution. This is one of several ways that we seek additional funding to develop innovative, tailored and engaging learning opportunities for all students.

This year we have set the contribution at $12 per term per family ($48 per year) but parents are welcome to pay more or less as appropriate.

Unlike some other schools, we do not ask parents to pay for the purchase of set textbooks or book packs.

This year your contribution will support the following:

- Access to and purchase of appropriate software, sites and apps to support the learning of all students in the classroom
- Assist with the cost of photocopying our spelling, maths and handwriting programs and other items of stationery.
- Purchase of K-6 reading resources and home reading for K-4 students.
- Purchase and preparation of learning resources to support the TEN (Teaching Early Numeracy) program in K-2 classrooms.

All contributions are welcome and genuinely assist us to deliver quality learning programs to the students of our school.

Your support in this matter is appreciated.

Kind regards

Charmian Cribb
Principal
